

CLISSOLD PARK

"It will be from the riverfront streets of Sandalshill & from the great-up slope of Chesham's Slingshot that thousands & tens of thousands of red pollen bugs will come to enjoy the sweet breeze in his under the shade of the old & handsome trees of Clissold Park. It will be on the 1st year that the little ones will romp & play & when the chosen is getting for a short time under the benignest influence of light sunshine & fresh air."

Letter from Joseph Back to the Editor of the Weekly Recorder after successfully campaigning to save the land for the public and create Clissold Park, 30 July 1888.
